You will find current Voucher Mappings for your system under the Voucher Management tab as well.

Gift Card Admin Module

Click on the bubble and it will expand the properties for the particular **Domain Voucher Mapping**.

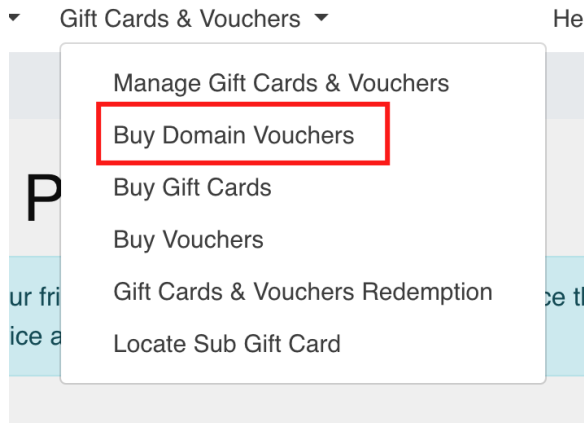

Note

You will not be able to delete a Domain Voucher Mapping if there is an existing Domain Voucher under it.

Operations

Buying

Your users can purchase a voucher by going to **index.php?m=giftcard&action=indexdomainvoucher** of your WHMCS. You can simply enable the Menu options under the Module's config.

Redemption

Once the user have an active voucher, they can goto **`index.php?m=giftcard&action=redeemgc`** of your WHMCS or click on the **Gift Cards & Vouchers Redemption** link in the menu above.

A screenshot of a web form titled 'Use this form to redeem your Voucher or Gift Card. Just fill in your voucher codes below and click on redeem! It's that easy!'. The form has two main sections. The left section is labeled 'Your Card Code' and contains a text input field with the value 'domain-Zbm5y-G0gFx-K3IO1'. Below this is a 'Validate' button with a magnifying glass icon. The right section is titled 'domain-Zbm5y-G0gFx-K3IO1' and contains the following details: 'Domain Extension: .com', 'Term Length: 1 Year(s)', 'Registration Type: Domain Renewal', and 'Expiration Date: Will not expire'. At the bottom of this section is a green button labeled 'Redeem Domain Voucher' with a right-pointing arrow icon.

The user will now be able to select from a list of domain that this user have that is eligible under the domain extension mapping
